Department of Conservation & Natural Resources

2016-2017 Annual Report
Pennsylvania Constitution
Article I, Section 27

The people have a right to clean air, pure water, and to the preservation of the natural, scenic, historic and aesthetic values of the environment. Pennsylvania’s public natural resources are the common property of all the people, including generations yet to come. As trustees of these resources, the commonwealth shall conserve and maintain them for the benefit of all the people.

MISSION STATEMENT
Conservation and Natural Resources Advisory Council

Drawing upon the diversity of experiences and perspectives of its appointed citizen members, the council will provide to the Department of Conservation and Natural Resources, to the Governor, to the General Assembly, and to the public, advice regarding the conservation and stewardship of the commonwealth’s natural resources.

The powers and duties of the council will be carried out as legislatively mandated in Section 315(d), Act 18 of 1995.
July 1, 2017

The Honorable Tom Wolf  
Office of the Governor  
225 Main Capitol  
Harrisburg, PA 17120

Dear Governor Wolf:

The Conservation and Natural Resources Advisory Council (CNRAC) is pleased to present its 2016-2017 annual report of our activities in fulfillment of our obligations to provide advice and recommendations to the Department of Conservation and Natural Resources (DCNR).

As our letters to you and the legislature over the last year have indicated, we remain concerned about the DCNR’s ability to sustain its high level of services in tight fiscal times. We appreciate the support you have shown the agency, but question the continued diversion of the Oil and Gas Lease Fund from its intended use in order to support the agency’s core operations. Considering the recent PA Supreme Court decision regarding the use of that fund, we believe it is even more prudent to return the agency to general government funds for its budgetary needs.

Council is closely following issues that impact the programs and services of DCNR. Climate change, increased demands for recreational opportunities, habitat loss, invasive species, gas leasing and other pressures will be felt by the agency. CNRAC will play an active role in the development of the first State Parks strategic plan in 25 years. We are also closely studying the demands and needs of the motorized recreation community to determine if there is more the agency can do to support motorized recreation.

We hope this report and our future actions will give you an indication of our commitment to these and other important issues.

Sincerely,

L. Richard Sayles
CNRAC Chairman 2015-17
CNRAC Council Members 2016-2017

GOVERNOR’S APPOINTMENTS

Erick J. Coolidge - Wellsboro, PA; Tioga County Commissioner and Owner/Operator of Le-Ma-Re Farm; term expires January 2019.

Susan Landes - Denver, PA; B.S, Recreation and Parks, Penn State University; M.P.A, Penn State University; Executive Director, Lancaster Recreation Commission; term expires January 2018.

Paul A. Lyskava - Camp Hill, PA; B.A. Notre Dame University; M.P.A. Public Administration, Penn State University; Executive Director, Pennsylvania Forest Products Association; term expires January 2018.

L. Richard Sayles - Harrisburg, PA; B.S. Developmental Psychology, Penn State University; Dauphin County Area Coordinator for the Retired Senior Volunteer Program (RSVP) of the Capitol Region; term expires January 2020.

Ephraim Zimmerman - Pittsburgh, PA; B.S. Wildlife Biology, Colorado State University; M.S. Forest Ecology, University of Michigan; Ecological Assessment Manager, PA Natural Heritage Coordinator, Western Pennsylvania Conservancy; term expires January 2020.

Vacancy

PRESIDENT PRO TEMPORE OF THE SENATE APPOINTMENTS

Rocco S. Ali - North Apollo, PA; B.S. Biology and Chemistry, Geneva College; M.S. Orthopedics and Neurology, University of Pittsburgh; Physical Therapist and Clinical Supervisor, Nova Care Outpatient Rehabilitation; term expires January 2020.

L. Stockton Illoway - Phoenixville, PA; B.A. Liberal Arts, Harvard University; M.S. Financial Science, American College; Senior Sales Associate, 1847 Financial; term expires January 2020.

Robert E. Kirchner - St. Marys, PA; B.S. Health & Physical Education, Slippery Rock University of PA; Owner, WhyNotSafety, LLC; President, American Council of Snowmobile Associations & Allegheny Forest Alliance; term expires January 2020.

Walter N. Peechatka - New Cumberland, PA; B.S. Forestry, Penn State University; Senior Consultant, Versant Strategies; term expired January 2016, awaiting reappointment.

Janet L. Sweeney - Luzerne, PA; B.A in Sociology, State University of New York; M.S. Science in Planning and Regional Development, University of Arizona; Director, Pennsylvania Environmental Council; term expires January 2018.

David Trimpey - Pittsfield, PA; B.S. in Forest Science, Penn State University; Resource Manager, Kane Hardwood Division of Collins Pine Company; term expires January 2018.
SPEAKER OF THE HOUSE APPOINTMENTS

Clifford C. David, Jr. - Lower Gwynedd, PA; B.A. Psychology, Bucknell University; B.S. Botany, University of Vermont; M.S. Organization and Management, Antioch College; President, Conservation Economics; term expires January 2020.

William Engle - Harrisburg, PA; B.S. Geoenvironmental Studies/History, Shippensburg University; M.S. Education, Temple University; term expires January 2020.

William C. Forrey - Camp Hill, PA; B.S. Landscape Architecture; M.S. Regional Planning, Penn State University; Retired Pennsylvania State Park Director; term expires January 2019.

Gary M. B. Kribbs - Havertown, PA; B.A. Geology, University of Toledo; M.S. Geology, University of Toledo; President, AEON Geoscience, Inc.; term expires January 2019.

David Rohm - Pittsburgh, PA; Visual Communications, Art Institute of Pittsburgh; Design Team Leader, Infinity Concepts; term expired January 2017.

Vacancy

CNRAC OFFICERS AND STAFF

DCNR Secretary – Cindy Adams Dunn
Chairman – L. Richard Sayles, July 2015 to July 2017
Vice Chairman – Gary Kribbs, July 2015 to July 2017
Secretary – Ephraim Zimmerman, July 2016 to July 2017
DCNR Council Adviser – Gretchen Leslie
Council Assistant – Katie Woodbury

CNRAC SUBCOMMITTEES

Park and Forests Strategic Plans
Erick Coolidge, Bill Forrey, Janet Sweeney, Cliff David, Dave Trimpey, Rick Sayles, Paul Lyskava, Sue Landes, Bill Engle

Motorized Recreation
Bob Kirchner, Rocco Ali, Gary Kribbs, Stock Illoway, Ephraim Zimmerman, Walt Peechatka

Ad-hoc groups
Forests: Paul Lyskava, Erick Coolidge, Dave Trimpey, Bill Forrey, Bob Kirchner
Water: Erick Coolidge, Ephraim Zimmerman, Walt Peechatka, Rocco Ali, Dave Trimpey
Recreation: Sue Landes, Rocco Ali, Bill Engle, Bob Kirchner, Bill Forrey, Gary Kribbs
Youth: Sue Landes, Rick Sayles, Bill Engle, Walt Peechatka, Janet Sweeney
Climate: Cliff David, Ephraim Zimmerman, Stock Illoway
Green: Gary Kribbs, Cliff David, Janet Sweeney, Rick Sayles, Stock Illoway, Paul Lyskava
CNRAC Meetings

July 27, 2016

PRESENTATIONS

Rachel Reyna, section chief, Rural & Community Forestry Section of the Bureau of Forestry, gave a presentation on DCNR’s Woodland Stewardship Program, a program that helps private land owners develop a stewardship ethic for their lands through education, best management practices, long-term planning and conservation. Privately-owned forest land comprises 52 percent of all forested lands in Pennsylvania.

Gale Blackmer, director of the Bureau of Topographic and Geologic Survey, presented on the history and advancements of Pennsylvania’s seismic network. Over the past several years, the seismic network has expanded to 30 stations, which allow seismologists to better predict the exact locations of the events. From 2013-2014, more than 1,500 events were detected, ranging from 1.07 to 2.89 on the Richter Scale, most likely caused by mine blasts. Other sources of the events are tectonic earthquakes and induced seismicity from wastewater disposal wells and hydraulic fracturing.

Other attendees included:
- Gene Odato, PA Forestry Association
- Gary Gilmore, DCNR Forestry
- Robert Swift, Scranton Times-Tribune
- Jeffrey Clukey, House Appropriations Committee
- Patrick Henderson, Marcellus Shale Coalition

September 21, 2016

PRESENTATIONS

Alan Lichtenwalner, regional manager of State Park Region 1, discussed the Bureau of State Parks role in helping to advance tourism in the PA Wilds region through public-private partnerships and strategic infrastructure investments, including the Elk Country Visitor Center, Kinzua Bridge State Park Visitor Center, master plan development for Denton Hill State Park, improvements to the dark sky viewing at Cherry Springs State Park, the Sinnemahoning Wildlife Center, the Bald Eagle Nature Inn, and improvements to trail systems.

Matt Marusiak, land protection manager for the Western Pennsylvania Conservancy, described the conservancy’s role in protecting the region’s natural places of exceptional value, including the Clermont property, which is the largest acquisition in WPC history. The organization continues to conserve land in order to maintain working forests; supply timber for the forest products industry; promote biodiversity and connected natural communities; increase recreational opportunities; manage water; and improve air quality.
Ta Enos, director of PA Wilds Center for Entrepreneurship, described the opportunity for economic impact in the region through the outdoor recreation industry, stating many successful business ventures are thriving because of the investments made in the PA Wilds region. The PA Wilds Center for Entrepreneurship’s mission is to grow the nature and tourism industry of the area through an entrepreneurial spirit. The center provides core programs and services such as licensing, selling merchandise in a physical and online gift shop, brand marketing tools, access to new markets, mentorship and referrals to service providers, and networking and education sessions.

PUBLIC COMMENT

Liz Krug, president, PA State Snowmobile Association, presented council members with a draft proposal of changes the association is recommending to enhance the snowmobile industry in Pennsylvania. The premise of the proposal is an increase to the registration fee, changes to the management of the snowmobile funds, and a requirement for individuals to join a club.

Jerry Thornton, snowmobile/ATV rider, commented on the long process of obtaining approval for grants and on a lack of signage in the area for snowmobiles and ATVs.

Jake Meyer, attorney for Meyer & Wagner, gave council members a position paper regarding the floating docks on East Branch Lake at Elk State Park.

Ed Atwood, a snowmobiler from Warren, suggested Pennsylvania should follow New York’s methods for registering snowmobiles.

Other attendees included:
- Meredith Hill, DCNR
- Mary Meyer, resident
- Becky Polaski, St. Marys Daily Press
- Kimberly Kirchner, resident

November 16, 2016

PRESENTATIONS

John Norbeck, DCNR deputy secretary for Parks and Forestry, provided an update on current ATV statistics and studies. With ATV activity growing and changing, DCNR is looking at new ways to meet the demand. There are almost 700,000 ATVs in Pennsylvania, about 170,000 of which are registered through DCNR, generating about $3 million in revenue each year.

Sara Nicholas, DCNR policy director, presented council with recommendations from the Green Ribbon Task Force, which formed to help protect working forests and create timber industry jobs. Thirty-five members from fields in academia, the forest products industry, conservation, and state government came together to compile the recommendations, which included the development of a forest conservation easement program, recruitment through better messaging and curriculum, and better marketing for forest products made in Pennsylvania.
Gretchen Leslie, DCNR senior adviser, highlighted the success of the first PA Outdoor Corps -- five teen crews who worked over the summer on projects on state parks and forests. The Pennsylvania Outdoor Corps’ goals are to provide job experiences and pathways to careers, particularly for those in underserved communities, and to foster a conservation ethic.

PUBLIC COMMENT

Thomas Wagner, citizen, addressed the dock issue at East Branch Lake in Elk State Park raised at the September council meeting in Benezette.

Jeff Schmidt, Sierra Club member, spoke to the removal of conservation positions from the ATV/Snowmobile Advisory Committee; DCNR’s 2003 moratorium of no new ATV trails; and an enhanced public process for large land management decisions such as new trails, infrastructure, gas development, and timber management.

Others attendees included:
- Georgia Wagner, constituent
- Jennie Shade, DCNR

January 25, 2017

PRESENTATIONS

Mike Walsh, DCNR deputy secretary for Administration and Jake Newton, executive assistant for Parks and Forestry presented on DCNR’s Sustainability Initiative. DCNR hopes to set an example for other state agencies in green technology and sustainability through solar demonstration projects, reduction in energy consumption at its facilities and an optimization of DCNR’s vehicle fleet with hybrid/electric replacements.

Jason Hall, forest program manager for the Bureau of Forestry, presented on DCNR’s ATV and snowmobile safety training; its certification program for safety instructors; and the criteria for youth when operating ATVs and snowmobiles.

PUBLIC COMMENT

Jeff Schmidt, Sierra Club member, commented on the changing federal position on climate change; protection of Ryerson Station State Park in light of proposed longwall mining in and around the park; and tapping into the settlement monies from the Volkswagen litigation to possibly help with DCNR’s reduction in gas-powered vehicles.

Others attendees included:
- Mike Nerozzi, assistant director, Joint Legislative Conservation Committee
March 22, 2017

PRESENTATIONS

Paul Zeph, planning division for the Bureau of State Parks, provided council members with an update on the State Parks Strategic Plan, *Penn’s Parks for All: Planning for the State Parks of Tomorrow*, the bureau’s first strategic plan in 25 years. An initial public survey is collecting opinions on recreation amenities, business operations, outreach, visitor experiences, and resource management.

Danielle Beish, fiscal management division for the Bureau of Administrative Services, gave an update on Governor Wolf’s proposed budget, which included a 3.6 percent reduction in positions and a heavier reliance on the Oil and Gas Lease Fund for operations than the previous year’s enacted budget.

PUBLIC COMMENT

Richard Martin, PA Forest Coalition, expressed concern that expansion of ATV trails will could make the illegal ATV riding situation worse.

Other attendees included:
- John Norbeck, DCNR
- Greg Podniesinski, DCNR
- Coleen Engvall, Joint Legislative Conservation Committee

May 24, 2017

PRESENTATIONS

John Norbeck, DCNR deputy secretary for Parks and Forests, provided an update on the status of Ryerson Station State Park, explaining the background beyond the loss of the lake and the “Revision Ryerson” planning process to enhance other features of the park. CONSOL, who has rights to longwall mine on panels, has reached an agreement to not mine under Kent Run in the park to limit the chance of stream subsidence, and will perform enhanced restoration on any subsided lands.

Alex MacDonald, chief of the Trails, Greenways and Statewide Planning Section in the Bureau of Recreation and Conservation, provided an overview of DCNR’s Trails Program, discussing funds used for the program; demands for the monies; DCNR’s focus on completing major trail gaps; and a current statewide ATV study identifying locations across the state where DCNR can support additional trails.

Others attendees included:
- Peter Spadaro, DCNR
- Jake Newton, DCNR
- Scott Carney, DCNR
- Sara Nicholas, DCNR
Field Trip – Northwest Pennsylvania

Eleven of the CNRAC members traveled to northwestern Pennsylvania to tour state park and forest lands to learn about DCNR’s economic impact on tourism and the timber industry in the PA Wilds. Stops included Kinzua Bridge State Park visitor center and skywalk in McKean County. Once known as the longest and tallest railroad structure at 2,053 feet long and 301 feet high, the Kinzua Viaduct was partially destroyed by a tornado in 2003. It was reimagined in 2011, opening as a new pedestrian walkway where visitors can stroll 600 feet out on the remaining support towers, peer miles out into the Kinzua Gorge, and gaze down through the partial glass platform at the end of the walkway. Council members also explored the new park visitor center, which tells the story of the men who built the bridge.

Council members spent a day in the forests learning about the timber industry in Pennsylvania and the importance of Pennsylvania’s state forest land to providing a reliable source for top quality timber to the industry. The group visited an active timber sale on the newly acquired Clermont tract in Elk State Forest, plus toured Kane Hardwood sawmill and Domtar paper company.
Council members learned about the importance of elk tourism to the region at the Elk Country Visitor Center, a public-private partnership with the Keystone Elk Country Alliance (KECA). KECA operates the center, which sits on state forest land and was partially funded through state dollars. Tens of thousands of people flow through the center each year to learn about the majestic elk that freely roam the region. Elk graze on fields right outside the center’s windows, although early morning fog prevented council members from any elk sightings.

Council held a public meeting at the new outdoor classroom, where attendees learned about tourism and conservation efforts in the PA Wilds from several speakers: Rawley Cogan, KECA president; Alan Lichtenwalner, state parks regional manager; Ta Enos, PA Wilds Center for Entrepreneurship; and Matt Marusiak, Western Pennsylvania Conservancy.

The Honorable John Maher
PA House of Representatives
Chairman, House Environmental Resources and Energy Committee
House P.O. Box 202040
Harrisburg, PA 17120-2040

The Honorable Mike Carroll
PA House of Representatives
Chairman, House Environmental Resources and Energy Committee
House P.O. Box 202118
Harrisburg, PA 17120-2118

Dear Chairmen:

I am contacting you on behalf of the members of the Department of Conservation and Natural Resources Citizens Advisory Council (CNRAC). As you are most likely aware, our council is charged with providing advice to DCNR regarding the conservation and stewardship of the commonwealth’s natural resources.

CNRAC members have been discussing DCNR’s budget over their last several business meetings and have requested information on what is being proposed by both Governor Wolf and by HB 218. After hearing from Secretary Dunn at our May business meeting and reading the details of the proposed cuts, CNRAC shares the agency’s concerns outlined in a letter sent to you by Secretary Dunn a few weeks ago. The proposed FY 17-18 House budget severely cuts DCNR’s budget to the point where it will be unable to fulfill its mission. For the parks and forests to be sustained into the future, DCNR’s operations and staff must be adequately funded.

We request the specifics outlined in Secretary Dunn’s letter be reconsidered in the final budget negotiations. You have been supportive of DCNR and its programs and services in past budgets, and we hope that support continues in the FY 17-18 and beyond. After all, DCNR provides an enormous return for the commonwealth’s investment of only one half of one percent of the state’s general funds.

We welcome an opportunity to discuss our concerns about DCNR’s budget with you. Thank you for your consideration.

Respectfully submitted,

L. Richard Sayles
CNRAC Chairman
April 6, 2017

The Honorable Tom Wolf
Office of the Governor
225 Main Capitol Building
Harrisburg, PA 17120

Dear Governor Wolf:

I am contacting you on behalf of the members of the Department of Conservation and Natural Resources Citizens Advisory Council (CNRAC). The Council would like to thank you for your continued support for conservation and stewardship of our state parks and forests as demonstrated by the substantial funding for the Bureau of Forestry and Bureau of State Parks in both your FY 2016 budget and proposed FY 2017 budget.

There are two issues in DCNR’s budget, however, that are concerning to members of the CNRAC. The first is the continued reliance on the Commonwealth’s Oil and Gas Fund to pay for DCNR operations, rather than solely for conservation, recreation, and flood control projects on Commonwealth lands. The second is the elimination of permanent, but currently unfilled, state jobs, 64 of which are within the Department. This permanent loss in complement greatly reduces the capacity of existing programs in the Department required for adequate stewardship our natural resources.

DCNR budget is a very small part of the overall state budget. However, state parks and forests generate substantial economic benefit for the Commonwealth. Our public lands provide world-class opportunities for outdoor recreation, hunting, and fishing, and revenue from the development and sale of forest and mineral resources, including natural gas and valuable, high quality hardwood timber. Diverting funding from the Oil and Gas Fund may jeopardize DCNR’s ability to carry out its mission to manage its state parks and forests. In addition park infrastructure repairs have already been delayed or eliminated. Providing quality recreational opportunities to citizens using these lands is an essential part of the Departments charter. If revenues from extraction of gas and oil resources underlying state lands are less than expected, these needs may again be compromised.

Likewise, a reduction in staffing within DCNR will most certainly compromise the Department’s ability to properly manage public resources within state forests and parks, as well as the many other programs and services it administers. The Governor’s 2017-2018 budget shows a reduction in DCNR staff of 64 full-time positions, 33 of which are within the Bureau of State Parks. While it is always prudent to search for efficiencies that result in cost-savings, a loss of this magnitude within a Bureau whose staff are already over-extended, may hinder the ability of state parks to provide for the needs and safety of their over 38 million annual visitors. Interest in recreation and use of our parks and forests by the public is growing. Parks and forest must be properly staffed to assess, monitor, and mitigate impacts of environmental stressors such as invasive species and shale gas extraction.

In order to sustain parks and forests into the future, DCNR’s operations and staff must be adequately funded. We applaud your continued efforts to support the activities of DCNR and support of our gold medal award winning park system. However, the recent practice of using Pennsylvania Oil and Gas Fund to fund general operations and initiatives outside the Department is concerning as is the permanent reduction in full time compliment within the Department. We ask that the budget address these concerns to provide for the needs of the many users of public lands in Pennsylvania and to ensure sufficient stewardship of our natural resources into the future.

Thank you for your consideration.

Respectfully submitted,

L. Richard Sayles
CNRAC Chairman
December 8, 2016

John Hallas, Director
Bureau of State Parks
Pennsylvania Department of Conservation and Natural Resource
Rachel Carson State Office Building, P.O. Box 8551
Harrisburg, PA 17105-8551

Dear Mr. Hallas,

During the public comment period of our September 21, 2016 meeting in Benezette, Jake Meyer of St. Marys addressed the council about the ongoing dock issue at Elk State Park. The council also received public comment on the topic at our November 16, 2016 Harrisburg meeting from Thomas Wagner, also of St. Marys. Both men are property owners and dock permit holders at the East Branch Dam. Both presentations included written comment and position papers regarding the topic.

Research conducted by CNRAC liaison Gretchen Leslie and council member Bob Kirchner revealed that this issue regarding the location and generational transferability of dock permits has been a source of concern to the permit holders and the department for at least 10 years, though the physical situation that drives the concern has been present for decades. This location is unique within the commonwealth and offers opportunities and issues not found elsewhere. It should be noted that the department and Mr. Wagner, as a representative of the Property Owners-Dock Permit Holders, have corresponded on this topic at least twice since 2007.

The council discussed this matter at our business meeting on November 16. In the view of CNRAC, it seems the most effective course of action to address East Branch Dam issues would be for the bureau’s leadership to establish a stakeholder group at the local level. This group would establish rules for its own self-governance and an efficient meeting schedule to work through issues as they arise and address opportunities for improvement as they are identified. This group of local citizens and authorities having jurisdiction, working cooperatively, should be a useful tool in meeting the needs of all involved stakeholders.

The council encourages the Bureau of State Parks to consider the feedback of this stakeholder group in making relevant policy decisions.

Respectfully submitted,

L. Richard Sayles
CNRAC Chair
December 8, 2016

The Honorable Cindy Adams Dunn, Secretary
Pennsylvania Department of Conservation and Natural Resource
Rachel Carson State Office Building
P.O. Box 8767
Harrisburg, PA 17105-8767

Dear Madame Secretary,

During the public comment section of our September 21, 2016 meeting in Benezette, Liz Krug, president of the Pennsylvania State Snowmobile Association (PSSA), addressed the council concerning several issues related to snowmobile use and funding in the commonwealth. Ms. Krug provided a written copy of her testimony and a document that dealt with the overall scope of our Pennsylvania Snowmobile Trails Program through the eyes of the PSSA. The information contained several issues that the PSSA identified as opportunities to enhance the program.

The council discussed this matter at our working session on November 16. In the view of this council, it seems the most effective course of action would be to strengthen the partnership between the department and the snowmobile community by considering a contract or public private partnership (P3) with the PSSA to address the issues as identified. Such an arrangement could provide expertise to the department, organized volunteer assistance for the overall program, and a consistent way for working volunteer enthusiasts to capture reimbursements for the work they are currently doing among other potential benefits to both parties.

One particularly troublesome issue, the recent bifurcation of the Snowmobile/ATV fund by legislative action, will require a shared user group/DCNR vision of registration fee increases and the application of those fees within the program.

CNRAC encourages the department to work closely with the user group to overcome these challenges and identify new opportunities presented through a contract/P3 agreement.

Thank you in advance for your reasoned consideration of this matter.

Respectfully submitted,

L. Richard Sayles
CNRAC Chair
In Memoriam

CNRAC Council member Paul Lyskava passed away June 26, 2017 after a brave battle with cancer. Paul had been a council member since January 2015. Paul had served as the Executive Director of the Pennsylvania Forest Products Association for 15 years. He was a tireless advocate for the forest products industry and was active on council on issues related to the industry and state forest land. Paul’s wisdom and wit will be greatly missed by his fellow council members.
