GOLDEN EAGLE TRAIL

The Golden Eagle Trail is a 9.08 mile circuit trail, located 3.8 miles north of Cammal on Route 414. The trail was constructed by the Bureau of Forestry and the Waterdale Youth Group. Because of the rugged topography, locations for overnight camping along the trail are extremely limited. For this reason, OVERNIGHT CAMPING IS NOT PERMITTED ALONG THE GOLDEN EAGLE TRAIL.

MILES TRAIL DESCRIPTION

0.00 Trail begins along Route 414, follow orange paint blazes. Parking across the road at Clark Farm/Utceter Parking Area
0.39 Entrance trail joins main trail, waterfalls to left of trail
0.69 Trail drops into stream bottom, trail repeatedly crosses stream for next 2.3 miles (In times of high water you may get wet feet)
0.93 Intersecting spring on left, marked by cairn(water not tested)
1.38 Game Commission boundary line
2.27 Large hollow to the west
2.93 Intersects small hollow and turns right (E)
2.97 Spring (fairly reliable) 50 feet right of trail near bottom of hollow (water not tested)
3.06 Trail turns left (N) into saddle leaving small hollow
3.25 Trail turns right (E) out of saddle onto Game Commission access road and ascends out of Bonnell Run drainage
3.52 Vista views across Bonnell Run and into drainages across Pine Creek
3.76 Vista overlooks Beulah Land, Oregon Hill, and southern Tioga County
3.87 Trail leaves Game Commission access road
3.89 State Forest boundary line
4.35 Vista looks across Wolf Run and Bonnell Run drainages and into drainages west of Pine Creek, the country traversed by the Black Forest Trail
4.63 Trail enters Wolf Run hollow
4.80 Side hollow from west
5.02 Side hollow from east
5.08 Intermittent spring
5.15 Remains of an old stove, evidence of an old logging camp, probably the reason for the presence of the large hemlock and white pine
5.16 Side hollow comes in from the west
5.40 Unnamed hollow comes in from the east
5.79 Intersection with Watson Fork, large isolated rock formation on far side of Wolf Run can be easily seen when there's no foliage, affords wide views up and down Wolf Run
6.37 Old quarry site, flagstone still piled up
6.43 Intersection with hollow from the right, evidence of old log slide still visible
6.65 Crosses Wolf Run and sandstone bedding plane (looks like sidewalk) just upstream the shale directly beneath the sandstone has eroded and the sandstone has sunk, gives the appearance of a fault
6.67 Stratified sandstone boulder
7.01 Trail turns right up ridge between Pine Creek and Wolf Run (early exit-follow trail straight ahead to rail trail and proceed north to Clark Access Area.
7.34 Sandstone wall and backbone of ridge
7.44 Vista, views up and down Pine Creek
7.52 Vista, the Raven’s Horn, roosting spot for ravens, breathtaking views into Wolf Run and Pine Creek
7.58 Vista, to right of trail, good view into Wolf Run
7.67 Trail turns left down ridge
8.20 Trail meets old quarry road
8.35 Trail turns right leaving old quarry road
8.44 Intersection with old field, Clark’s pasture, gives nice views down Pine Creek
8.69 Trail meets Bonnell Run and turns left
9.08 End of trail, Route 414

BOB WEBBER TRAIL

This 1.7-mile (x2) out and back trail is best suited for fit individuals or families with active kids. Rugged and steep terrain ends on a beautiful vista. The trailhead is at the Ross Run Recreational Parking Area. Marked with yellow blazes, the trailhead is located along Route 414, 1.5 miles north of Cammal.
