Raymond B. Winter State Park

Raymond B. Winter State Park offers a wide variety of environmental education and interpretive programs available through hands-on activities, guided walks, and short classroom sessions. These programs are designed to meet the needs of individuals, groups, and organizations. Group programs must be scheduled in advance to ensure availability. Farm workers and students interested in agriculture, environmental education, or animal science can get involved in the Pennsylvania Farm-to-Park program.

Raymond B. Winter State Park is rich in natural beauty. The park features a variety of landscapes, including forests, wetlands, and streams. It also has a number of unique geological formations, such as quartzite rock and sandstone cliffs. Visitors can explore the park on foot, by bike, or by boat, and enjoy the many opportunities for education and recreation.

GEOLlOGIC FORMATIONS
Raymond B. Winter State Park features a number of unique geological formations, including quartzite rock, sandstone cliffs, and glacial grooves. These formations are a result of the park's history as a glacial river valley and a Pleistocene glacial deposit. Visitors can explore these formations on the park's many trails and interpretive programs.

NATURAL RESOURCES
Raymond B. Winter State Park is home to a variety of natural resources, including flora, fauna, and geological formations. Visitors can explore these resources on the park's many trails and interpretive programs.

ENVIRONMENTAL EDUCATION AND INTERPRETATION
The Pennsylvania Department of Conservation and Natural Resources offers a variety of educational programs and interpretive services at Raymond B. Winter State Park. These programs include guided walks, workshops, and interactive exhibits. Visitors can also explore the park's many geological formations, including quartzite rock and sandstone cliffs.

**RECREATIONAL OPPORTUNITIES**

**FISHING**
- The park is a catch-and-release fishery, stocked with bass, bluegill, and crappie. The Pennsylvania Fish and Boat Commission monitors and regulates fishing during the season. Anglers should refer to the season regulations for current rules.
- The lake and its nearby wetland area are home to a variety of wildlife such as ducks, geese, and swans. Fishing opportunities may vary depending on the time of year and weather conditions.

**HUNTING AND FIREARMS**
- About 487 acres of Raymond B. Winter State Park are open to hunting, with the exception of certain designated areas.
- The hunting season for deer, bear, and other wildlife species is governed by the Pennsylvania Game Commission rules and regulations. For more information, visitors can contact the park office or visit the Pennsylvania Game Commission’s website.
- Firearms and archery are permitted at all times. Other visitors use the park during hunting seasons.
- It is illegal to carry a firearm concealed on their person while they are within a state park.

**PICNICKING**
- Spend the Day area includes restrooms, dressing facilities, a sanitary dump station, drinking water fountains, and picnic facilities. Open from the second Friday in April until mid-September, the site offers a nice setting for outdoor activities.
- Raymond B. Winter State Park is the perfect place to enjoy a picnic with family and friends. The park offers a variety of amenities, including restrooms, dressing facilities, a sanitary dump station, drinking water fountains, and picnic facilities.

**Mountain biking**
- The 6.3 miles of hiking trails pass through a variety of terrains with only short stretches of steep inclines. Trails within the park are maintained and monitored, but some steep and proper attire is recommended for personal comfort and safety. Many of the park’s trails connect with the Bald Eagle State Forest, making Raymond B. Winter an ideal destination for mountain bikers.
- The trails are marked and maintained, but a map and proper attire is recommended for personal comfort and safety. Many of the park’s trails connect with the Bald Eagle State Forest, making Raymond B. Winter an ideal destination for mountain bikers.

**Bake Oven Trail**
- The Bake Oven Trail is a 0.9-mile, easy trail that begins after deer season in December until April. It is recommended for backpacking trips.

**Nearby Attractions**
- The area offers numerous opportunities for outdoor recreation, including hiking, fishing, biking, snowmobiling, cross-country skiing, and other winter sports. For more information, visitors can contact the park office or visit the Pennsylvania Department of Conservation and Natural Resources website.

**BRUSH HOLLOW TRAIL**
- The Brush Hollow Trail is a 0.33-mile, easy trail that begins after deer season in December until April. It is recommended for backpacking trips.

**Bluestone Trail**
- The Bluestone Trail is a 0.14-mile, easy trail that begins after deer season in December until April. It is recommended for backpacking trips.

**Bake Oven Trail**
- The Bake Oven Trail is a 0.9-mile, easy trail that begins after deer season in December until April. It is recommended for backpacking trips.

**Mountain Biking**
- The mountain bike trails are open to designated trails. Raymond B. Winter State Park provides access to over 25 miles of mountain bike trails in Bald Eagle State Forest. Riders will find over 48 miles of trails with nearly 100 miles of connecting forestry roads. The Central Mountains-Shenandoah Trail System provides general information about the number of trails.
- The Shenandoah Trail System contains a map featuring trails of varying lengths and difficulty. Maps are available at the park office and at the mountain bike trailhead in the main parking lot.

**Swimming**
- The swimming beach features 500 feet of white sand and is open from late-May to mid-September. A lifeguard is on duty from 10 AM to 6 PM. Swim at your own risk. Please read and follow posted rules for swimming.

**Mountain Biking**
