The Pennsylvania Department of Conservation & Natural Resources

Bureau of Forestry

Mission

The mission of the Bureau of Forestry is to ensure the long-term health, viability and productivity of the Commonwealth's forests and to conserve native wild plants.

"Pennsylvania’s public natural resources are the common property of all the people, including generations yet to come. As trustee of these resources, the Commonwealth shall conserve and maintain them for the benefit of all the people."

-- Article 1, Section 27 of the Pennsylvania Constitution

The 2014 Pennsylvania Primary Wood Processors Directory is a cooperative effort among the following partners:

This directory is a compilation of Pennsylvania’s primary wood processors. It includes the primary wood-processing companies that participated in a recent Timber Product Output Survey. It is a voluntary listing of the companies wishing to be included in the directory. As such this directory is not a comprehensive listing of every primary wood-processing company in Pennsylvania.

It is a goal of the partners to conduct the survey periodically in hopes of continually adding companies and refining the directory. Of the 430 companies still in business during the initial survey, 312 companies returned surveys and 284 agreed to be listed in this directory. Companies were located in 62 of Pennsylvania’s 67 counties.

The Pennsylvania DCNR Bureau of Forestry, in cooperation with the US Forest Service and other partners, conducted the survey throughout 2013 to provide information on the amount of timber harvested and processed by Pennsylvania’s forest products industry. The survey also provided general information on the employment force and overall production capacity of Pennsylvania’s forest products industry during 2012. The Bureau’s 35 Service Foresters started with several listings of primary wood processors and mills. They received training to canvass their assigned counties. Starting early in 2013, they began visiting sawmills and other companies in the counties where they work to learn more about Pennsylvania’s wood products industry.

A primary wood processor is one that actually cuts into a log or a bolt (a half log) to produce a primary wood product, whether that is a board, veneer, cant, chip, shaving or sawdust. These companies include sawmills, pallet mills, scragg mills, whole-tree chippers, firewood processors, and any other company receiving and processing roundwood into a primary wood product. Also, for the survey and this directory, log buyers & brokers exporting logs out of the U.S. were included.

Roundwood includes sawlogs for lumber; veneer logs and bolts; cooperage logs and bolts; pulpwood for paper; poletimber for fuelwood chips; logs for posts, poles, piling; shaving/excelsior bolts; mine-prop timber; logs for railroad ties, pallet cants and scragg mills; cabin logs; and many more examples.

### Wayne County

Preface

This directory is a compilation of Pennsylvania’s primary wood processors. It includes the primary wood-processing companies that participated in a recent Timber Product Output Survey. It is a voluntary listing of the companies wishing to be included in the directory. As such this directory is not a comprehensive listing of every primary wood-processing company in Pennsylvania.

It is a goal of the partners to conduct the survey periodically in hopes of continually adding companies and refining the directory. Of the 430 companies still in business during the initial survey, 312 companies returned surveys and 284 agreed to be listed in this directory. Companies were located in 62 of Pennsylvania’s 67 counties.

The Pennsylvania DCNR Bureau of Forestry, in cooperation with the US Forest Service and other partners, conducted the survey throughout 2013 to provide information on the amount of timber harvested and processed by Pennsylvania’s forest products industry. The survey also provided general information on the employment force and overall production capacity of Pennsylvania’s forest products industry during 2012. The Bureau’s 35 Service Foresters started with several listings of primary wood processors and mills. They received training to canvass their assigned counties. Starting early in 2013, they began visiting sawmills and other companies in the counties where they work to learn more about Pennsylvania’s wood products industry.

A primary wood processor is one that actually cuts into a log or a bolt (a half log) to produce a primary wood product, whether that is a board, veneer, cant, chip, shaving or sawdust. These companies include sawmills, pallet mills, scragg mills, whole-tree chippers, firewood processors, and any other company receiving and processing roundwood into a primary wood product. Also, for the survey and this directory, log buyers & brokers exporting logs out of the U.S. were included.

Roundwood includes sawlogs for lumber; veneer logs and bolts; cooperage logs and bolts; pulpwood for paper; poletimber for fuelwood chips; logs for posts, poles, piling; shaving/excelsior bolts; mine-prop timber; logs for railroad ties, pallet cants and scragg mills; cabin logs; and many more examples.
The Bureau of Forestry thanks all the businesses that shared information for this directory.

Special thanks go to the PA Forest Products Association, PA Hardwoods Development Council, and Penn State University’s Department of Ecosystem Science and Management for their contribution and guidance.

Special thanks go to the US Forest Service, Northeast Area State & Private Forestry - Wood Education and Resource Center for their guidance and funding throughout this project.

Special thanks go to the Bureau’s thirty-five Service Foresters who gathered and reported information for this directory.

Future Participation

The Bureau of Forestry plans to conduct Timber Product Output Surveys every two years. Other primary wood processing companies are encouraged to participate in these TPO surveys. If a company was not contacted in 2013 and would like to participate in the next survey, or if errors are found, or if other suggestions can be made to improve the directory; please send contact information and suggestions to the Bureau’s Silviculture Section.

The Bureau of Forestry thanks all the businesses that shared information for this directory.

Special thanks go to the PA Forest Products Association, PA Hardwoods Development Council, and Penn State University’s Department of Ecosystem Science and Management for their contribution and guidance.

Special thanks go to the US Forest Service, Northeast Area State & Private Forestry - Wood Education and Resource Center for their guidance and funding throughout this project.

Special thanks go to the Bureau’s thirty-five Service Foresters who gathered and reported information for this directory.

**Future Participation**

The Bureau of Forestry plans to conduct Timber Product Output Surveys every two years. Other primary wood processing companies are encouraged to participate in these TPO surveys. If a company was not contacted in 2013 and would like to participate in the next survey, or if errors are found, or if other suggestions can be made to improve the directory; please send contact information and suggestions to the Bureau’s Silviculture Section.

Preface

This directory is a compilation of Pennsylvania’s primary wood processors. It includes the primary wood-processing companies that participated in a recent Timber Product Output Survey. It is a voluntary listing of the companies wishing to be included in the directory. As such this directory is not a comprehensive listing of every primary wood-processing company in Pennsylvania.

It is a goal of the partners to conduct the survey periodically in hopes of continually adding companies and refining the directory. Of the 430 companies still in business during the initial survey, 312 companies returned surveys and 284 agreed to be listed in this directory. Companies were located in 62 of Pennsylvania’s 67 counties.

The Pennsylvania DCNR Bureau of Forestry, in cooperation with the US Forest Service and other partners, conducted the survey throughout 2013 to provide information on the amount of timber harvested and processed by Pennsylvania’s forest products industry. The survey also provided general information on the employment force and overall production capacity of Pennsylvania’s forest products industry during 2012. The Bureau’s 35 Service Foresters started with several listings of primary wood processors and mills. They received training to canvass their assigned counties. Starting early in 2013, they began visiting sawmills and other companies in the counties where they work to learn more about Pennsylvania’s wood products industry.

A primary wood processor is one that actually cuts into a log or a bolt (a half log) to produce a primary wood product, whether that is a board, veneer, cant, chip, shaving or sawdust. These companies include sawmills, pallet mills, scragg mills, whole-tree chippers, firewood processors, and any other company receiving and processing roundwood into a primary wood product. Also, for the survey and this directory, log buyers & brokers exporting logs out of the U.S. were included.

Roundwood includes sawlogs for lumber; veneer logs and bolts; cooperage logs and bolts; pulpwood for paper; poletimber for fuelwood chips; logs for posts, poles, pilings; shaving/excelsior bolts; mine-prop timber; logs for railroad ties, pallet cants and scragg mills; cabin logs; and many more examples.
The Pennsylvania Department of Conservation & Natural Resources

Bureau of Forestry

Mission

The mission of the Bureau of Forestry is to ensure the long-term health, viability and productivity of the Commonwealth's forests and to conserve native wild plants.

"Pennsylvania's public natural resources are the common property of all the people, including generations yet to come. As trustee of these resources, the Commonwealth shall conserve and maintain them for the benefit of all the people."

-- Article 1, Section 27 of the Pennsylvania Constitution

The 2014 Pennsylvania Primary Wood Processors Directory is a cooperative effort among the following partners:
