Harvey’s Creek Tract

The Harvey’s Creek Tract contains over 5,900 acres of diverse forest land that spans from Route 11 near West Nanticoke to Route 118 west of Dallas.

Fishing is popular in this tract with the scenic Harvey’s Creek, an approved trout stream, running through its heart. This tract also contains Moon Lake which harbors both trout and warmwater species. Pikes Creek Reservoir is surrounded by state forest land and is open to shore-line fishing only. An access point is found on Fedor Road.

The Moon Lake Recreation Area is a popular destination for those looking for a peaceful picnic or an adventurous mountain bike ride. A detailed map is available from the Resource Management Center.

For the history buff this tract contains the Harvey’s Creek flume which was once used to transport water from Pikes Creek to a reservoir above Plymouth. The experienced hiker can find enjoyment in journeying to the breathtaking view atop Tilbury Knob.

Care for the Land

State forests belong to all Pennsylvanians. Take time to enjoy them, but know the rules and regulations designed to protect the forests and you. Please be careful with fire, keep our forests litter free and don’t damage trees and other plants.

Certified “Well Managed”

Pennsylvania state forests are certified to FSC® standards. The Forest Stewardship Council® is an independent organization supporting environmentally appropriate, socially beneficial, and economically viable management of the world’s forests.

Leave No Trace

By taking the time to practice responsible outdoor ethics we can ensure that our state forests remain premier destinations for generations to come.

Pennsylvania’s vast state forest system comprises 2.2 million acres for you to use, enjoy and explore. The Department of Conservation and Natural Resources’ Bureau of Forestry manages these forests to ensure their long-term health and to conserve native wild plants.

The Pinchot State Forest comprises almost 50,000 acres and the district serves Lackawanna, Luzerne, Susquehanna, Wayne, and Wyoming Counties.
