**Certified “Well Managed”**

Pennsylvania state forests are certified to FSC® standards. The Forest Stewardship Council® is an independent organization supporting environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

The Susquehannock State Forest lies within the Pennsylvania Wilds, a two-million-acre region in north-central Pennsylvania, comprising 1.5 million acres of state forest and game lands, 29 state parks, and the 500,000-acre Allegheny National Forest. The Susquehannock State Forest encompasses about 265,000 acres located primarily in Potter County.

**The Working Forest**

The Susquehannock State Forest is a “Working Forest”. Working forests provide us many environmental, social, and economic benefits. In every direction, you can see the benefits of working forest. Forests build soil, filter groundwater, keep streams healthy, create oxygen, and provide shelter and food for plants and animals. They yield important resources we use every day, like lumber, firewood, and natural gas. They offer beauty, solitude, and the opportunity to recreate. When we manage forests carefully, they stay healthy and productive.

**Care for the Land**

State forests belong to all Pennsylvanians. Take time to enjoy them, but know the rules and regulations designed to protect and enjoy them. You need be careful with keep our forests litter free and don’t damage trees and other plants.
