

Commercial Activities Agreement, Michaux State Forest

Commercial Activities Agreement – A Commercial Activities Agreement (CAA) covers activities in which a person, organization, or association conducts a for-profit event or business, where fees are charged above and beyond the administrative costs of the activity (a profit is realized). It also covers activities that occur off state forest land but use state forest lands to further a business effort. The CAA is a contract and contains event-specific language and requirements. Please contact the Michaux State Forest district office with details of your request. Activities will be reviewed and, if determined appropriate, regulated through the CAA.

Applications for Commercial Activities Agreements (and Special Activities Agreements) for the upcoming year will be formally accepted from December 1st until March 1st. Requests received after March 1st for events that year will not be considered until the following year. However, sponsors are encouraged to contact the district office at any time throughout the year regarding a new activities agreement or modification of an existing activities agreement.
